The Mobile *Tribune*, of the 29th ultimo says: There is such a falling off in the cotton crop under the new system of labor that if Mobile receives all the cotton at present raised in the area of country that used to supply her in the past, it would not be sufficient to support her present population.

The Maysville, Kentucky, *Bulletin*, has the following interesting note about the present mode of living of the distinguished exile, John C. Breckinridge: "While living somewhat retired and in plain style, he is regarded with high consideration by eminent Europeans and enjoys the respect and esteem of Americans who visit that capital. He is a great student, and is enriching his capacious mind from the stores of European learning. When he returns home, as he assuredly will without a stain upon his honor, he will come with a ripened statesmanship and will show his persecutors and enemies that he is a patriot whose true love of country cannot be overcome by slanders, indictments or ostracisms. God help a country when such morally distorted specimens of humanity as Brownlow, Wade, Stevens, Sickles, etc., are in men of authority and honor, and such as John C. Breckinridge are its exiles."

The press-gang of New Orleans have had a narrow escape. The New Orleans *Times* of the 22th states that *attaches* of the press in that city have been the victims of disease in unusual number at this distressing time in New Orleans. Three members of the *Picayune* corps were ill, one with symptoms of cholera, another with some sort of fever, and a third with yellow fever. All three, however, Messrs. Hagen, Deitz and Condon, were reported convalescent. Major Robinson of the *Republican*, was down with yellow fever, but with a good prospect of recovery. One of the editors of the *Tribune* was down with the same disease, Mr. Catlin, of the *Crescent*, was reported slowly but surely recovering. Six members of the New Orleans editorial corps is a pretty large proportion to be sick at one time. So far as our observation extends, we think the editorial fraternity enjoy remarkably good health as a rule Influences inimical to health must be extraordinary when, in a city having six or eight newspapers, six editors are incapacitated for duty by sickness at the same time.

ARRIVAL OF A LIVE GORILLA.

The Beast at Barnum's Museum.

For the first time there is a live gorilla in New York—a gorilla like those of which Du Chaillu has told so many wonderful stories in "Equatorial Africa" and "Ashango Land." At a late hour yesterday afternoon there was an extraordinary excitement in the neighborhood of Barnum's Museum. The gorilla had arrived, and his roars attracted a crowd of spectators.

The animal was caught in the interior of Africa, and was put safely on board the sailingship Hardings and conveyed to this port. The box in which it was caged during the voyage was made of teak wood plank—the toughest material that could be found in Africa. A huge cart chain, fastened to the neck of the gorilla, passed through this box, and was nailed fast to the outside.

From the jarring the gorilla received yesterday during its transportation from the ship to the Museum, it became exasperated, and growled furiously during the trip. After the box had been taken into the Museum, Mr. Charles Brothwell, the Museum carpenter, loosened the chain from the outside of the box, and by direction of Professor Davison, attached to it a rope by which the animal was to be led from the box to the cage, by running the rope through the bottom of the cage and then fastening the chain to a beam of the building beneath the cage.

The rope was attached, when the gorilla began pulling in his chain. Professor Davison and Mr. Brothwell both grasped the chain, and several men behind grasped the rope, but their united efforts were unequal to the task. The animal, with apparent ease, pulled into his box both chain and rope, and untying the rope from the chain, dropped it from a hole in the cage.

Mr. Brothwell then got the largest cage scraper in the building—a huge wrought iron bar an inch and three-quarters thick, to which is attached a small spade—for the purpose of bringing out the end of the chain. This scraper had been used successfully in several contests with the lions of the establishment, which had vainly tried to make an impression on it with their jaws.

Mr. Brothwell and Professor Davison each took a scraper, and from opposite ends of the cage endeavored to foil the gorilla, and grasp the end of the chain. Finally the gorilla seized the bar which Mr. Brothwell held. Another man who is noted for his muscular strength came to the rescue, but the animal proved their superior, and bent the heavy piece of iron, double, so that the ends touched.

During this effort, however, the chain was secured and the box put to the cage, the animal entrapped, and his chain secured to the beams underneath.

During all this excitement the gorilla growled furiously, the sound resembling the excited growl of a Hon.

All the beasts in the building became excited, and the place resounded with their cries. Women fainted and children cried, but the crowd would not leave the room until the manager ordered them to be forcibly put out. A large barricade was then erected and the doorway blocked up.

The gorilla is now safely in the lion's cage and chained down. An immense chain, with a resistant force of six thousand pounds, is attached to the animal.

For five years past Mr Barnum has been endeavoring to secure an animal of this species, and ordered his agent in Africa to secure one without regard to cost.

Mr. P. T. Clayton, Mr. Barnum's agent, a few months since wrote that he could secure one for eight thousand dollars, but that the British Government were making every exertion to secure it for the Zoological Garden in London. Mr Barnum sent word that he must have this one if it cost a much greater sum. Accordingly, the gorilla was brought to America, and is now safe at the Museum.

When standing upright it is about five and a half feet in hight, and is about the color of an elephant. Its face has more the appearance of a human being than of a monkey, with an eye exactly like that of a human being. Its hand is as delicate as that of a woman's, and it would not seem possible that there is in it such muscular power.

This morning it exhibited an intense hatred of Mr. Brothwell, who was yesterday instrumental in its capture.

Professor Davison feeds the animal upon vegetables, but allows nothing of acid to be placed in the cage. If the gorilla becomes irritable, it is soon calmed by placing a few chunks of oranges in its cage.

MILITARY ORDER MODIFIED.

Election in Louisiana.

NEW ORLEANS, September 28.

General Mower issued an order to-day modifying military orders relative to juries in Texas, so as to render it practicable to obtain juries in that State. The order requires jurors to be drawn from those registered, the oath prescribed, and no other oath is required than that of registration.

The election passed off quietly both days. No official returns are in yet from the fourth Municipal District. The total vote polled is about 1,200 in this district. The Republican despends of the vote being large enough to render the election valid, and says the white vote is about one-tenth of the whole vote cast. The entire vote of the city is estimated at 12,000, while the number registered is over 28,000. Several instances were noted of negroes voting or offering their votes under a different name than that on their registry papers.

GROVER & BAKER'S

CELEBRATED

ELASTIC STITCH & LOCK STITCH

SEWING MACHINES

Why the Grover & Baker Machine is Best.

1. It is more simple, durable, and less liable to derangements than others.
2. It sews from ordinary spools, and no rewinding of thread is necessary.
3. It sews with equal facility all fabrics, the most delicate and heavy, and with all kinds of thread and cotton.
4. Its seam is so strong and elastic that it never breaks, even on the bias.
5. It fastens both ends of the seam by its own operation.
6. Its seam, though cut at every stitch, remains firm, and neither can nor ravels in wear.
7. Its seam is more plump and beautiful, and retains its plumpness and beauty after washing better than any other.
8. Its seam can be removed in altering garments, after proper instruction, without picking or cutting them.
9. Watching and placing the tensions on the threads necessary in other machines, is unnecessary in this. The tension being once adjusted on the GROVER & BAKER machine, any amount of sewing may be done without change.
10. It makes beautiful embroidery without any change of arrangement, simply by inserting the proper feller and cloth for the purpose. It is the only machine that will embroiders and sews perfectly.

Liberal Advances—Supplies at Wholesale Prices

Commission for Selling Cotton $1 per Bale

To the Cotton Planters of West Tennessee, Alabama, Mississippi and Arkansas.

THE undersigned respectfully tenders his services as Agent for the sale of your cotton in this city, and for the purchase of your supplies. The unfortunate termination of the late war, which so materially affected the best interests of the south, has also had its effect upon the commission business of this city, as transacted before the war. You (or doubtless will remember with what pertinacity, (previous to the war) amounting in some instances to annoyance, you were solicited for your business, at the rate of fifty cents per bale commission, free of storage, and stored for twelve months without charge. Then (as will be again) the producer was the ruling element, and high rents, rich landlords and merchants were the result of planters' patronage.

No people or occupation have been more seriously prostrated than planters and planting, and none so much deserve to be fostered and aided in their unfortunate changed condition.

How that aid, so much needed, has been meted out, you, I opine, too well know. Onerous government taxes in general, and a special tax upon your leading production, cotton; large profits you have had to pay upon supplies furnished; commission on sales, varying from $3 50 to $5 per bale; monthly storage at exhorbitant prices, and other expenses, as per reference to your account of sales, as a sum total, will leave you but little, if anything, upon which to rebuild your shattered fortunes, or to compete with the new order of affairs, free labor.

When I withdrew from the cotton commission business in 1866, private reasons then led me to believe that I would never engage in it again. The solicitations of many friends, that were former patrons, and a desire to promote the interest of the planting community, so far as my feeble efforts can do so, and the apparent want of gratitude exhibited to a community that in times past has tendered so materially to the prosperity of Memphis and its mercantile community, has determined me again to offer my services in the capacity as stated. The reduced stock of cotton in the United States and short supplies in the hands of New England manufacturers, has caused some advances in prices from the late depression, hence early sales may be prudent and remunerative. Such was the case the past two seasons, and many planters have had cause to regret the action upon the too common practice of holding and drawing upon their cotton. I would

WEDNESDAY, : : : : OCTOBER 2, 1867

SPEAKING of the New York election in November, the New York *Herald* of the 27th ultimo remarks:

"The political fires are beginning to blaze up all over the State, and everything gives promise of a very warm contest in the November general election, as well as in the charter election which follows in the city of New York one month later. One of the parties, the Republicans, have already placed their candidates in the field and given them a sort of platform to stand upon. The other, the Democrats, meet next week to make their nominations and to announce the principles upon which they desire to go before the people."

The *Herald*, with all its eccentricities, is an excellent indicator. It asserts, in the commencement of its leader, that the contest will be "warm," which we understand as meaning that it will be closely and determinedly fought. The great Empire State, which wields so much power from its large population, its wealth, its force in Congress, its concentrated political, financial and commercial affiliations, cannot be regarded otherwise than with interest. The election which is to take place on the 5th proximo will be looked to with hope by the friends of their country, while the Radicals who are seeking its thraldom, have only the desperate wish to carry their point and perpetuate their power by the base means to which they have resorted elsewhere, by the vilest fabrications and the prestige which has followed them heretofore, like the successes obtained by the infatuated zealots led by the veiled prophet. The rascality of the Radical majority in Congress, is thus described by the *Herald*, in the course of another article in the same issue:

"The Republican party has been faithless to its pledges and to the will of the people. It presented to the people last year as its platform of reconstruction the pending Constitutional amendment, leaving it to the respective States to choose between suffrage and representation on the one hand and unrestricted suffrage, with a corresponding loss of representation, on the other. That platform, by overwhelming majorities, was approved from Maine to California. Why was it, thus endorsed by the people, abandoned by Congress? Because the party in power thought it had secured the power to do anything, and because it thought that with the establishment of negro supremacy in the South, in addition to an overshadowing moneyed oligarchy in the North, its reign of power would be indefinitely extended."

"Aye, there's the rub." These are the alpha and the omega of Radical expectation. In the State of New York a game of deception is being played by these characters. They have put forth a platform, which the *Herald* sneers at as "a very diluted, cowardly, fraudulent affair"—as "wishy-washy and worthless." The *Herald* says:

"It touches every issue in a gingerly, timid manner. It is gingerly on negro suffrage; gingerly on impeachment; gingerly on Sunday laws and prohibition. * * * The platform should have been indignantly scouted and kicked out of the Convention by every Radical delegate who possesses a spark of boldness and manhood."

The opponents to the Radicals will hold a Convention at Albany this week, and the ticket there formed, in the opinion of the *Herald*, will represent the opposition to all the dangerous and revolutionary dogmas of Radicalism, entertained by the whole mass of the people, without distinction of party. The *Herald* sums up its views upon "the situation," in these words:

"But the Republicans will lose this fall the votes of all the thinking business men, who foresee the ruin that awaits the country if the violence and intemperance of the radical Congress should be suffered to proceed unchecked, while the Democrats will secure the aid of all who desire to unite next year in a great constitutional movement to rescue the country from the hands of the men who are recklessly driving it to destruction. Those who are willing to submit to a negro government will adhere to the Radicals; those who believe in a white man's government will go with the opposition. The reaction already seen in California and in Maine will make itself felt more distinctly in New York, and the party that links its fortunes with the tremendous bubble of the National banks, the supremacy of the negro, and the temporary legislation of the Puritans, will assuredly go to the wall."

In another part of the same article, in which the prospect of the municipal election in December is discussed, the *Herald* predicts that the city of New York "will roll up her sixty thousand majority against the negro party." The appearances are most favorable for a triumphant majority in the State of New York for the country and the Constitution, and against the destructives, who are bent on trampling under foot "all the good we have inherited and proved, for the desperate chance of" perpetuating the supremacy of Puritanism and a moneyed oligarchy.

THE election for a State Convention, to continue two days, commenced in Louisiana on the 27th ultimo. The friends of order and constitutional freedom, indulged the hope that the presence of the epidemic in its virulent form, would have presented a sufficient motive for delay, that even more time might be allowed for reflection, and the reproduction of that "sober second thought," once deemed a spontaneous emanation from the people, and the safeguard of our free institutions in which they all had a vital interest. Those calling themselves "Conservatives," and opposed to the revolutionary schemes of Congress, had no ticket—abstaining from a contest in which they had no prospect, if possibility of success. It is imperative that the affirmative vote, as expressed at the polls, should outcount the rest of the registered voters, so that by not voting at all, those opposed to a convention, especially at this time, will be protected, just the same as if they had cast their votes against the convention. The Radical organ at New Orleans is apprehensive that the convention question has failed to carry for want of a sufficient number of votes—a circumstance, that if it prove correct will be highly consolatory to every Conservative.

A revival is going on in the Methodist Church of Nashville.

The Legislature of Tennessee will assemble on the 6th of October.

The corner stone of a California State Asylum, for the deaf, dumb and blind, to cost $100,000, was laid on the 26th ultimo, at Alemada.

At the so-called election for Mayor of Nashville on the 28th, Alden, the non-resident Radical candidate received 2423 votes, and Scovel, the home Radical, 258. The majority for the former, 2165. Very few white men voted.

A Paris letter states that the latest fashion in veils is to wear them so as to shade the chignon. The face is exposed to the sun to let the face acquire the fashionable color of the brunette, and the dye of the chignon is preserved.

It is said that the Black Crook will have a rival in the "Devil's Auction," a grand spectacular drama, for which dancers have been brought from Europe, and which is about to be produced at Banvard's Theater, Broadway, New York.

General Scott's will, just probated, bequeaths all his property to his daughter and wife. To his other daughters he had previously given very nearly equal proportions of his effects. His Pulaski sword was left to West Point Academy, and his sword worn in Mexico, to his grandson, Winfield Scott.

A physician in Gloucester, who died several years since, told a friend, in confidence, that he often administered pills made of brown bread, soaked in paregoric, to that class of patients who were always imagining themselves sick. The pills satisfied them, and did no harm, while it added greatly to the reputation of the good old doctor.

The condition of Spain is thus briefly stated: "There is no form of government so admirably calculated to promote the happiness and security of the country as a limited monarchy, but there is hardly any form of government liable to such dreadful mischief as a monarchy without a monarch."

MIDNIGHT DISPATCHES.

FROM WASHINGTON.

WASHINGTON, October 1.

The navy department will incorporate a limited number of engineers with the regular service. Persons having served not less than two years during the rebellion can make applications for examination, stating their ages, and forwarding letters of recommendation. The Board of Examination is in session at Philadelphia.

The receipts from Internal revenue, from all sources, to-day were $700,000; aggregate receipts for September, $13,000,000.

FROM NEW YORK.

NEW YORK, October 1.

The Croton National Bank was closed by Government to-day having failed to redeem its circulating notes on demand. A Receiver will be appointed. The capital of the bank was $200,000, a considerable portion of which seems to have been lost. Its circulation is $180,000, which of course is secured, and will be redeemed at the Treasury. The deposits, amounting to about $80,000, belong mostly to country creditors, and probably will be eventually paid. The bank has no Wall street deposits, and its failure has scarcely produced any effect.

Eleven Government vessels were sold at auction to-day. The ship North Carolina brought $80,000; Rhode Island, $70,000; Augusta, $65,000; Massachusetts, $50,000; Pontiac, $17,000; Estel, $9,000; Conewaugh, $17,100; Tuhoama, $13,000; Sonora, $14,000, and Osceola, $18,000.

Specials say it is understood that the trial of ex-President Davis is considered in the Cabinet to-day.

The public debt statement will be ready for issuing to-morrow. It will show a reduction in the total debt. Gold in the treasury, however, has considerably increased since August.

General Sheridan visited the stock exchange and gold room to-day, and was enthusiastically received; he subsequently met with a reception at Brooklyn. He attends the Patterson races to-morrow; hold a reception for ladies at the Union League rooms Thursday, and leaves in the evening for Newport, thence to Boston.

The printing of the impeachment testimony has been suspended for the present, and will not be resumed until the week previous to the reassembling of Congress. This is deemed necessary to prevent its being known before presentation to Congress.

Members of the National Republican Executive Committee say correspondence has taken place between many members of the committee relative to the place for holding the National Convention. Chicago will probably be selected.

Another Washington special says it is reported that the Treasury Portfolio has been offered to Robert J. Walker, and he will assume office immediately after the fall elections.

Kittatinny Blackberry at the West.

Among the many testimonials received, the following in regard to this splendid berry on the prairies, may suffice. A gentleman in a distant county, Ill., writes: "The Kittatinny Plants got of you in the Spring of '66, fruited this season most abundantly, one week earlier than my Lawtons, on the same ground and treatment, and the smallest branch withstood the winter without any injury whatever.

Price for strong plants, $20 per 100; $150 per 1,000.

Public Sale OF 300 ACRES SUBURBAN LAND

ON TEN YEARS' CREDIT.

I PROPOSE to sell at public sale, to the highest bidder on THURSDAY, the 14th of November, 1867, about three hundred acres Field and Forest Land, on my Homestead Tract, situated three miles east of Memphis, at the head of Union avenue, and lying between Union avenue and the Old State Line road. The most popular street pavements being now in process of construction to the south, good carriages or street railways on the roads leading from the city directly through this property, must soon follow, thereby affording the most reasonable accessibility or its great and rapid enhancement of value.

In stating the advantages of this property, I would specially refer to the HEALTH of the locality as having been always considered equal, if not superior to that of any portion of the city environs; while the high character of the neighborhood, and the provisions made for CHURCH AND SCHOOL PRIVILEGES, combine to render it one of the most desirable points for a suburban residence within the vicinity of Memphis offered.

The TITLE to this property has been vested in my father and myself for thirty years without interruption, and is free from any incumbrance.

THE SUBDIVISION OF THE GROUNDS will be in lots of about Five Acres, according to plans to be seen at the office of the Auctioneers. The avenues will be opened and the lots numbered so as to be readily examined before the day of sale.

BEING DETERMINED TO SELL, I shall offer the following liberal

TERMS:

One-tenth Cash, the balance in TEN ANNUAL INSTALMENTS, with interest from date. Warranty Deeds given, and Trust Deeds taken, waiving redemption. These terms will make it very easy for any one to secure a pleasant home, which must constantly increase in value and comfort, as the growth of the city advances.

The Buntyn Tract at Public Sale.

DESIROUS of carrying out as speedily as possible the provisions of the Will of G. Buntyn, deceased, in the disposal of his Homestead, I WILL OFFER AT PUBLIC SALE, the remaining portion of the Tract, consisting of about

SEVENTY-FIVE LOTS,

Varying from one to ten acres in size, and fronting with the deed lands all the wood land logs on the Tract.

The high reputation for fine health which this locality enjoys, and the choice of easy and quick communication with the city by railroad or dirt road, give to these lands advantages that render it apparent to the business men of Memphis, as a cheap, convenient and pleasant point at which to establish their residences, combining as fully the advantages of town and country.

With the object of removing all difficulty in selling, we shall offer the property upon the following easy

TERMS—One-fourth cash, balance in 6, 12, 18 and 24 months' with interest. Warranty deeds given and deed of trust taken, waiving redemption.

EVERY LOT PUT UP WILL BE SOLD WITHOUT RESERVE. Plans of the lots may be obtained at the office of the Auctioneers; and no lot being staked so as to be examined before the sale.

Sale will be upon the premises on WEDNESDAY, the 16th of October, 1867.

Notice,

I HEREBY forewarn the public not to trade for an acceptance dated Hot Springs, Ark., September 12, 1867, at ten (10) days sight, for one hundred and seven dollars ($107) in favor of W. D. I was forced to give the same, which I did upon compulsion, there being no consideration for them.
EDWARD IVINSON.

HOT SPRINGS, ARK., Sept. 28, 1867.

To the Citizens of Memphis:

"Oh! for a whip in every honest hand
To lash the infamous band of Edward Ivinson, &c. &c."

In reply to the infamous card of Edward Ivinson, No. 34 Main street, published in your paper of the 26th inst., I would say that I am a poor man, and have been robbed of my property. If you don't believe it, call on Mr. Ivinson and see his stock of groceries. If you do, you will find that he has not one-fourth of the amount of goods that he had when he came to this city. He has fattened upon the property of others. I will collect the note, and if all the property I have left will not pay it, I propose to appeal to the people of Memphis to help me out. I propose to exercise my constitutional privilege of an honest man in the exercise of my own discretion as to how I will dispose of my property.

SPECIAL NOTICE.—Our city patrons are requested not to pay any one for subscriptions to the AVALANCHE without a certificate from the office authorizing them to collect.

GALLAWAY, RHEA & CLUSKEY.

SWORE IN.—Dr. Brown and I. M. Hill were yesterday sworn in as members of the Board of Aldermen from the fourth ward, to which position they were elected at the last meeting.

HO! FOR TEXAS.—A party of emigrants from Dickson county, in this State, passed through the city yesterday, on their way to Texas.

LAW COURT.—The Clerk of this Court requests that all Magistrates before whom cases have been appealed to the next term (second Monday in October), will send up the papers in such cases without delay.

THE REMOVAL.—The report of Captain Hood to the Mayor was erroneously stated in the papers yesterday morning. The discrepancy was but one yards, and the monetary value of the mistake was $24,00.

ATTEMPTED ESCAPE.—The man accused of the murder of Dr. Ramsey made an unsuccessful attempt to break jail. It did him no good, as he was detected in it before he had accomplished his object.

THE LATE STABBING AFFRAY calls to the bar of the man stabbed at the Overton Comedy [illegible] was Thomas Cirnan, and neither of them, we are [illegible] e firemen. The wounded man is improving, and [illegible] et been arrested.

A NEW COUNTY SEAT.—A petition to move the County Court and Circuit Court from Memphis to Bartlett, will soon be in circulation among our citizens for signatures. Some of the influential members of the bar are in favor of it, and its removal is also approved of by many of our business men and citizens.

UNITED STATES COURT.—The case of Maples vs. Bridges has not as yet been concluded. It will be taken up again to-day. Judge Trigg heard another argument last evening, in the injunction case of Dean vs. Gayoso Gas Company et al.

FIRE.—A fire caught yesterday shortly after noon in a negro domicile immediately in the rear of the old Provost Marshal's office on Court street. The firemen were soon on the ground, and a poor chance that dyspeptic fire stood when they got to work. They snuffed it out like a candle.

HOWARD ASSOCIATION.—This most humane society effected an organization on Tuesday. Mr. R. W. Almaire was elected president, and Dr. Wm. Everett, secretary. Under its initial management, it cannot but prove a measure of beneficence, as some of the best and most christian men of the city are identified with it.

FRIENDLY SONS OF ST. PATRICK.—The usual monthly meeting of the above society will be held this evening in their new hall, next door to Ward & LeGuere's drug store. A full attendance of all the members is requested. Business of importance will be introduced.

CORONER'S INQUEST.—An inquest was held last evening at six o'clock upon the body of Henrietta Blackwell, infant child of Frank and Matilda Blackwell. Verdict—came to death by natural causes. Coroner Cotton gave an order for its burial. The father has deserted the mother and child since it was one month old.

RUNAWAY.—A horse attached to a grocery wagon ran away yesterday on Jefferson street. He evidently wished to test the Nicolson pavement, but should not have been so demonstrative in his speed. He went around the corner of Fourth street at a regular Dexterian gate, and if Bonner had seen him he would have soon found a purchaser.

POLICE OPERATIONS.—For the quarter ending Thursday the police report the following operations: Total number arrests for First District, 1866; fines assessed, $11,122 20; fines collected, $3,396 50; collected on mittimus, $1,776 55; total collections, $5,060 05; amount of property recovered, $1,884 05. In the Second District for the same time, 681; fines assessed, 7,743 70; fines collected, $3,407 20; collected on mittimus, $912 95; total collections, $4,314 15; amount of property recovered, $5,228.

NO CRIMINALITY.—Coroner Cotton held an inquest upon the remains of the negro infant found on South street, but no criminality was found in the affair. It was still born, and had been hid away by the ignorant parents. It had been on the premises five weeks, and was only discovered by the new tenants of the house from the noxious effluvia arising from its decomposition.

CANE PRESENTATION.—A beautiful gold headed cane was presented to W. H. Diedrick, Esq., of the Planters-Insurance Company of Memphis, on the evening of the 29 ultimo by his friends in Louisville. Captain J. G. Milligan presented the cane in a neat and well timed little speech, which was happily responded to by the recipient. The occasion was a very pleasant one, and will long be remembered by the participants in it. So says the Louisville *Courier*.

RECOVERED.—Mrs. H. Osgood, living corner of Main and Exchange, was robbed some time since of a quantity of jewelry, and it was but yesterday that the stolen goods were recovered, through the exertions of Deputy Sheriffs Wren and Ed. McGuire. Three negroes were arrested, and are now in durance vile for the offense. Their names are Abe Lawrence, Levi Alkin and Wm. Atkinson. The property was found in their rooms, and they were sent to jail for an examination on Saturday.

Emmons & Son, No. 10 Jefferson and 393 Main street, have received Waverley Magazine, Wilkes' Spirit, Albion, Building with Consrete, Commercial and Financial Chronicle, London and New York dailies and weeklies, the Broadway Magazine for October, Ozane and Elbert (by Brickhop). These are all the magazines for October; also, the London Art Journal, and dailies from everywhere.

ON THE GRAB.—A white female named Josephine Jones, snatched a ten dollar bill from a shade named Henry Gallaway, yesterday, in a bar room on Front street. He was about paying for a drink, when the fair Josephine caught to appropriate it; but notwithstanding her fleetness, she was captured, and is now in prison.

ASSAULT.—As County Commissioner Louis and the barkeeper of the "Court Recess," next door to the Greenlaw Opera House building, were going home last night about eleven o'clock, they found Mr. Uhl lying on the sidewalk suffering and bleeding profusely from the effects of a wound inflicted by a brick thrown by some person unknown. Mr. Uhl was passing along, not dreaming of any danger, when the missile struck him. It was a severe blow, but no dangerous consequences are apprehended.

A LAND SLIDE.—Vicksburg seems to be troubled like Memphis. It is said by our scientific men that the river is undermining the bluff, and that a stream of water is now running under it. We are going to have a levy and other preventive measures against the encroachments of the Father of Waters; but while he is only threatening us, he has attacked Vicksburg, and drew into his embraces the other day quite a quantity of land. A number of houses were injured, and the water went through many other unaccountable freaks. Can't Thad. Stevens have the river reconstructed? or is it under the jurisdiction of the military governments?

AN OLD OFFENDER.—Michael Dunn, who many is the time and oft has made his congee to the presiding genius of the Police Court, was again detected *flagrante delicto* yesterday. This time the irrepressible Mike had a pair of boots under his arm, quietly endeavoring to make his exit from the shoe store of Goodbar & Gilliland. He was arrested by Officer Chamberlain, and is now gracing by his presence the odiferous precinct of the first station. He is the same genius that was caught some time since in Passmore & Co.'s cellar. When shall we have a house of refuge?

NOT SO.—We had an item in yesterday morning in reference to the fining of A. Chighisola for the militia fine of $5 on Sunday. The case has not yet been decided, and when it comes up for trial we think Mr. Chighisola will have no difficulty in proving his innocence of the offense. Mr. C. keeps an oyster saloon and confectionary in connection with his saloon, and the charge arose from the fact that he had his establishment open for the sale of fruits, etc. We cheerfully make the correction.

NEWS.—Ed. Worsham is still prepared to supply his friends with all that is new and good in the current literature of the day. He has now the latest numbers of the Waverley, Wilkes' Spirit, and Saturday Night, besides other papers covering the whole range of the current literature. His stock of novels would make a romantic maiden's forsaken lover's heart leap, while if she was to see his stock of stationery, it would make her write to him again to make friends; and a for his base bulls, when the boys once see them, they have to play.

REVIVING.—There is no question but that business is reviving to a most considerable extent. Cotton has commenced to arrive freely, and as a consequence, the stagnated wheels of our merchandize are becoming Palmetto-fan in their breadth. In front of Greeley & Co.'s, on Main street, yesterday, we noticed at one time on the sidewalk, sixteen bales of new cotton, and mules and wagons, teamsters and planters, and passing pedestrians, made the scene a lively one, and gave great promise of what we may expect when the fall business once fairly opens.

DANCING AND DEPORTMENT.—Nothing can possibly be more embarassing than awkwardness. Parents should always endeavor to have their children instructed in all things that may add to their future contentment. We are happy to state the dancing school of Mr. H. C. Lippard, for children, will open on Wednesday, the second instant, at three p.m., at the Gayoso. It come well recommended. Mr. Lippard we know to be a perfect gentleman, and his proficiency in teaching is well known. He was here before the war, and the graceful figures that attended so much admiration in all our dancing rooms, are in little indebted to him for his superior training. We feel fully satisfied those who may send their children to him will be amply repaid when the time arrives for them to grace the ball room or the parlor.

MEETING OF THE CITY COUNCIL.

A Rich, Rare and Racy Time.

The Gas Question—Register Imbroglio.

The Board of Aldermen met yesterday afternoon, at three o'clock, with a fair attendance. President Hurlbut in the chair.

Minutes were read and approved, and the new Aldermen from the Fourth ward sworn in.

Monthly reports from the various City Officers were received. The Fire Warden reported loss from fire at $225, and $225 insurance. The Lumber Inspector has examined 18,500 feet of lumber, and received $9 as fees. The Market Masters reported collections amounting to $760 75. Dr. Keller showed that his patients were admitted into his hospital, 149 discharged, 25 died, and 128 were at present in hospital. The Wharfmaster collected $6,007 45. The Tax Collector on Privileges reported for collecting $17,891 60, and the City Tax Collector $8,350 46. The Acting Engineer reported a total expenditure as follows: Cisterns, $1,200; bridges, $2,709 19; hauling, $1,313; office expenditures, $325; Nicolson pavement, 7 sections, 19,681 square yards, and 4,651 feet of curbing, costing $17,151 16—city's portion, $12,787 50.

The Mayor sent in a message, the most salient portion of which we reproduce, in regard to the City Engineer matter he says:

I charge Mr. Foster with a want of attention to the details of the work under his supervision, and a want of competency as an engineer, to have charge of such important public improvements as are now in progress.

The undressed condition of the sewers at the mouth on the streets to be paved, is no evidence of a want of skill in my judgment that cannot be overlooked. These sewers should have been finished and allowed to settle days before the pavements are laid on them; but instead of this, they were not commenced until the pavement was laid so near to them that the contractors were obliged to stop the work until they were finished, causing great inconvenience to the contractors and perhaps damage also loss to the city.

The unskillful mode in some instances in the pavement after it was laid, and in many instances in the grades and fill on the streets during the progress of the paving, is another evidence of the want of attention or a want of skill in his professional.

These charges of a lack of duty and a want of professional skill are substantiated, all of which, together with his contemanding an order given by me to two of his assistant engineers to measure and estimate the amount of paving done on Jefferson and old Madison streets, and Chamberlain among were the moving causes of his suspension. An estimate had been returned to me by Mr. Foster, certified by himself, making the amount due for work on those streets $17,686 60. A copy of his estimate accompanies this communication, and marked "A." I did not believe this return was correct, and determined to have it tested before a settlement was made with the contractors, who had been promised a settlement and payment by one o'clock on Friday. In order to enable me to comply in time with the promise made them, I directed Messrs. Hood and Stockton, Assistant Engineers, to measure and estimate the work and report to me as soon as practicable. They had nearly completed it, when they were ordered by Mr. Foster to stop the measurement, for the reason that all orders for work in his department should emanate from him. Mr. Foster also told me that he had stopped the measurement because *of what some had the estimate was correct, and that, if it were not, he considered it very responsible to the city for his errors.*

Messrs. Hood and Stockton were directed to measure and estimate the work for the purpose of detecting and correcting the errors and blunders of Mr. Foster, and it did not become mine to countermand an order to accomplish the object. For this unwarrantable interference with my order, and want of skill in his professional duties, I suspended him, and directed some gentlemen I proceed with the measurement and estimate—the result of which fully sustains my opinion of the incorrectness of Mr. Foster's estimate. A copy of their report marked "B" accompanies this, and shows a difference to *Mr. Foster's estimate of $16,290 60, against the City.* Messrs. Hood and Stockton made two careful measurements of the work, and I am fully satisfied of the correctness of their report, and see no reason why I should recall my order suspending Mr. Foster. The estimate handed me by Mr. Foster was signed for a *fixed* estimate of the work done on the streets mentioned, and not for the amount of work done on the streets mentioned, and, as it, payment in full was due to, and expected by the contractors. In view of the immense amount involved—over $1,500,000 now under contract, he idea the general interest of the city I leave it for your honorable body to determine whether it is proper to leave this vast interest in the hands of an officer who, either from culpable neglect of official duty, or from a want of professional skill, commits such blunders as are here complained of.

The Mayor goes on to recite that he has directed the Street Commissioner to reduce his force to twenty-five men, and recommends the discharge of the whole street force, as a financial measure, as he thinks that the streets are in better order than they have been for many years. He also makes some further recommendations in regard to reducing current expenses, all of which were concurred in by the Board. The master of the City Engineer was sent to a committee of three, consisting of Aldermen Ruffin, Passmore and Cochran. The street force was ordered to be discharged on the first of October. Here an animated discussion took place, as to whether Pinch or South Memphis had been most thoroughly cleaned, and the Aldermen cleaned out the subject.

The Chairman appointed the new Aldermen to the same committees on which were their predecessors, so that Mr. Hill becomes Chairman of the Committee on Finance. The city pound has been abolished, and the salary of Assessors reduced at five dollars per day. The gas question came up, and was near being lengthened out to the crack of doom, much forensic ability was displayed, and many of the Aldermen proved that more people than professional gasmakers could run a gasometer. The report of the Gas Committee came up in the shape of an amended ordinance, authorizing an election on October 12, for the purpose of subscribing for 250,000 of stock of the Gayoso Company: Providing the city shall elect four of the seven directors, and that the city bonds shall be received at eighty cents on the dollar for stock. Here commenced the fun. Aldermen Passmore, Smith, Shaw, Lemon, Bowers etc., making the Council chamber vocal with their eloquence, and requiring the utmost tact and energy on the part of the Chairman to keep the eloquent gentlemen within the bounds of parliamentary decorum. The matter was finally referred to the Ordinance Committee. The Mayor nominated assessors for the coming corporate year, Hon. John D. Park, L. J. Dupre, and Wm. Underwood. They were at once confirmed. The Board then adjourned till four o'clock this afternoon.

NEW MEMPHIS.—Miss Boyd appeared last night in the play of the "Serf," a piece of not much merit; and a milk and water imitation of the noble play of "Love." Miss Boyd and the company made all they could of it, but, drag ged its slow length along, notwithstanding. *Tom* is the character of the piece, and Mr. Roche, throwing aside some imperfections in elocution, and some rather bad stage business, pleased us. Mr. Ferguson, as the *Prince*, had the coolness of cruelty about him that would scarcely us refreshing to a Roman aristocrat of the present day. Mr. Mitchell as Kohr, was as revengeful as the spirit of vengeance itself. During the evening the orchestra gave some good music, and we congratulate Manager Thompson on the excellence of his leader, and his assistants. We must tell a good joke on the audience and the critic of one of our papers. The audience did not seem to know when the piece was finished, and our brother Bohemian assured us there was to be another act, and was not convinced that we had seen the "Serf" until the lights were lowered. To-night Miss Boyd appears as May, in the "Ticket-of-Leave Man," and we can promise our readers a rich treat, for we are assured that it is one of her best characters, and one in which she has made much reputation in Europe. Her benefit will take place on Friday night, and we look to see a perfect jam, both from the intrinsic merits of the performance and the acting of Colonel Crockett, who, we understand, has come all the way from Little Rock to play for the benefit of the fair B lle.

ANOTHER HERO GONE.—The funeral of Lieutenant James R. Lawler will take place this afternoon at four o'clock from the residence of Colonel Thornton, on Jefferson street, (second door), and the members of the 7th and 154th Tennessee regiments are especially invited by his brother, Captain Lawler, to attend. Lieutenant Lawler, from Missouri, joined the Zouaves in 1861. He was cap ured in front of Nashville on Hood's raid, and taken to Camp Chase, where he remained till July, 1865. He was a most gallant soldier, and was wounded at Shiloh, Murfreesboro and Jonesboro, serving how actively and courageously he bared his breast to battle. At the consolidation of the Zouaves and Maynard Rifles, he was elected Lieutenant, showing the high estimation in which he was held by his comrades. It is thus our heroes are passing away. Tears, tears for their memory.

BOARD OF HEALTH.—An adjourned meeting of the Board of Health was held yesterday at the Gayoso House. Present, Drs. Knode, Brown, Pittman, Sim, Otey, Taylor, Fraser and Rogers. Dr. Lewis, President, in the chair. Considerable discussion was had on health matters; but no action was taken in the premises. Dr. Rogers moved the following resolution, which was unanimously adopted:

Resolved, That we tender our sincere thanks to Colonel Cockrell, of the Gayoso House, for his kindness and consideration in furnishing the Board of Health a room for their deliberations, and for the very elegant dinner tendered its members and their invited guests; that in his we recognize the public-spirited citizen, the genial and clever gentleman, and the hospitable host whose many similar acts of kindness have endeared him to this community, and commends him to the traveling public.

The Board then adjourned to meet to-day at twelve o'clock.

CHANCERY COURT.—The cause of Harlan vs. Avery, in which a jury was empanelled, has been continued until next Thursday, at ten o'clock A.M. The Jurors in the case will take notice of the above action of counsel.

The following case has been set for hearing to-day: Harris vs Warner.

Sage vs Jones, order of sale.

Low Brothers vs Sale, sale confirmed.

Hallage vs Gregg, injunction dis olved.

HORSE STEALING.—Two horses, the property of Dr. Collins of the State Female College, were stolen on Tuesday night, and up to this time the Rev. Dr. has not recovered his property.

MUNICIPAL COURT.—The October term—Criminal side of the Court—opened on yesterday pursuant to adjournment. The Grand Jury was empanelled and sworn and will receive a charge from Judge Waldron to-day.

The trial of criminal cases will not commence before next Tuesday.

The Law side of the Court will continue in session until next Monday, which will be motion day. The roll of attorneys will be called as usual.

The following cases are set for trial to-day:

Nos 194, 195, 196, 202, 203, 204, 205, 206, 207, 209, 212, 213, 214, 215, 216, 218, 219, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236.

SHELBY COUNTY CRIMINAL COURT.—Last evening, just before the appointment of Court, the Jury in the case of Jacob Thompson, fadkleman for horse stealing, brought in a verdict of guilty and ten years imprisonment in the penitentiary. The usual motions for new trial, and in arrest of judgment, were entered as also suspension of the defendant's sentence. The criminal dock will continue to be called to-day.

RIVER NEWS.

AVALANCHE OFFICE,
WEDNESDAY, October 2.

BUSINESS—WEATHER—RIVERS.

Weather clear and warm. The river continues to decline, with a little improvement in the channel. The Marble City reports four feet eight inches at Phillips' bar, and five feet at Island 34. At St. Louis the river had risen several inches up to Sunday noon, but came to a stand Sunday evening. The Pilgrim reports thirty inches in the channel in the Arkansas to Pine Bluff and twenty inches from there to Little Rock. The Ohio continues at low tide, with less than thirty inches water in the bars in the lower Ohio. The Yellow River remains low, with four feet six inches in the channel to Augusta. St. Francis river has gone dry, and is only navigable now by catfish. The little Star recently made a trip in that stream, and only succeeded in getting out by sliding over the large sized cat and buffalo fish.

MISCELLANEOUS.

Business on the wharf yesterday exhibited a fair degree of activity.

The Commercial got off at a late hour for White river with a splendid trip. She was compelled to refuse freight, while her cabins and guards were crowded with passengers.

The Pilgrim was receiving for Arkansas river and the St. Patrick for Vicksburg, and during the afternoon the upper part of the levee wore a busy appearance.

The Mary McDonald, from Vicksburg, and Stonewall, from New Orleans, passed up for St. Louis at noon.

The Continental and W. R. Arthur, bound for New Orleans, and Bridgeport, bound for Vicksburg, are aground at Phillips' bar. The Continental reached here last night, and was to proceed at daylight.

The M. and V. T. towboats Sharke and Bee, with barges, are aground between here and Cairo—the former at Phillips', and the latter at Island 34.

The Adam Jacobs is the regular Thursday packet for St Louis.

The American is probably laid up, as her advertisement has been withdrawn from the paper.

The Pilgrim is the only boat receiving for the Arkansas. She is a Memphis institution, and the regular packet. Let our merchants bear this in mind, and protect their own interests by giving their freights to the Pilgrim.

The Marble City arrived from St. Louis about noon with a fair cargo of miscellaneous freight. She discharged her trip and returned to St. Louis at eight p.m.

The Natoma, the boat that has been so horribly so much, and commanded by a brigade of land shoremen, left for Mariana with a light trip.

Ice half an inch thick was formed in Wisconsin last week.

The Henry Adkins, Champion and Lizzie Gill were advertised to leave St. Louis for New Orleans yesterday; the Nightingale for Vicksburg, the Adam Jacobs and Cornelia for Memphis, and the Little Rock for Arkansas river.

Captain Garret Huls and Mr. Mike Pyne, the energetic owners of the St. Patrick, endeavored to get that boat ready in time to leave last night, but the carpenters were delayed in waiting for the lumber. Her repairs will be finished this morning, and she will back out at twelve o'clock for Vicksburg and the bends. Captain Huls is determined to accomodate the people, and spared no expense in repairing his boat in order to make her regular trips. Messrs. Clay Rice and John Sullivan, her amiable and attentive clerks, will be found in the office always ready to attend to the wants of the shipping and traveling public.

The Gleaner left Pine Bluff yesterday, and will be in port on Thursday to receive for a return trip, and leave on Saturday for Pine Bluff.

We gleaned the following from a respectable party, lately from St. Louis: Some people have faith in dreams. Captain Cunningham, the former Treasurer of the Atlantic and Mississippi Steamship Line, is evidently one of them. Previous to his resignation he dreamt that he saw John Bollinger with the company's safe upon his shoulder, walking off from the wharfboat at St. Louis. Fearing that it might come true, and that he might be implicated in some way, Captain Cunningham resigned.

Captain Williams, the proprietor of the wharf-boat and Steamboat Agent at Vicksburg, is in the city. He is welcome to our city, and finds here many friends who appreciate his worth and take pleasure in having him among them.

The Atlantic and Mississippi Steamship Line is a fine institution. There is no end to its magnanimity. The Line is noted for its liberality, especially when it is fortunate in picking up a way passenger or way freight! We have heard of a recent case where it "piled up the agony" in a way that will not be soon forgotten by those who go for clear decks and plain sailing. Those who do not wish to be gouged, and expect accommodations, civilities and courtesies to commensurate, should look out for some other means of transportation. The people of the lower Mississippi, and those who live in the bends, would do well to remember this warning, and give the Atlantic and Mississippi Steamship Company's line of boats a wide berth.

The Bolivar *Bulletin*, in speaking of the Worsham House, has the following:

We feel it a duty to lay before the public the claims of this excellent hotel, now deservedly one of the most popular in the south. The house is a contiguous succession of the most pleasant rooms. The table is supplied with the choicest delicacies the country affords, and the attentions of the courteous C. B. Gilliy, aided by the gentlemanly clerks, will be found ever ready to minister to the comfort of guests.

The Evansville *Journal* of Saturday has the following:

Henry Miller returned from French Island yesterday, and from him we learn that the Starlight had succeeded in getting the bar, but the barges and freight were above. Whether they will be able to get them over is yet to be solved. The Pink Varnie, after t...e hours labor, got over at three o'clock, and the Starlight, after a short rest, will try the purpose of trying over, and may be expected here to-day. The Charleston had arrived with one barge, and passed the packet by times. She had not yet secured the portions passed. The Minnesota will remain at the foot of the Cut-off to-day to assist if necessary. The Lee, Key West and Gray Eagle left Memphis on Monday. The Lee and Key West passed Helena on Tuesday. The Gray Eagle was at Napoleon Monday night, and passed Helena on Tuesday. The Lee and Key West passed Napoleon on Tuesday. The Gray Eagle passed Vicksburg on Tuesday morning. TUESDAY'S NOON DISPATCHES.

The Forthcoming Trial of Mr. Davis.

President Johnson and the Proposed Impeachment.

Maryland Militia Supplied with Artillery

WASHINGTON, October 1.—The Times' special says it is officially announced that the Government will ask for further delay when Davis' trial comes off in November, and that the counsel for the accused will make a motion to enter a nolle prosequi. Judge Underwood will be present, but it is not settled whether Judge Chase will preside.

The motion to quash the proceedings will be argued and decided probably during the early part of the term. It is due to Attorney General Stanbery to say, although he has been consulted regarding the matter and may have advised the prospective delay, he cannot be held accountable for the manner in which the case is being conducted. He complied with District Attorney Chandler's request for assistance in prosecuting the trial by employing Hon. Wm. Evarts as assistant counsel, consequently Chandler is alone responsible.

During a recent interview with an old time friend, the purport of which has been retailed publicly, Mr. Johnson stated that he would take his final stand against Congress by resisting its right if it assumed to suspend him during the progress of his impeachment trial, if he was impeached. So many ifs spoils the thread, but it is probable that if the first opportunity afforded the President to take a stand against Congress, the subject will be to veto a bill providing for a suspension of the office of all public officers who may have been impeached, until they have been tried, which will immediately be introduced and passed early in the session.

NEW YORK, October 1.—The Board of Councilmen met yesterday and adopted a resolution, by a vote of eleven to eight, tendering the hospitalities of the city to General Sheridan, and offering him the use of the Governor's room in which to receive citizens. The Mayor and the Board sent a message to the Brooklyn Board of Aldermen, yesterday, announcing General Sheridan's intended visit to the city. A resolution was offered expressing admiration for his military services during the war, but expressing disapproval of his course in Louisiana. A substitute for this, tendering him a public reception, was lost by a tie vote.

BALTIMORE, October 1.—General Grant having refused to issue artillery to the Maryland militia on Governor Swann's demand, the Governor has purchased a battery of twelve pounder Napoleon brass guns for an artillery company in this city, and the guns have been assigned to three companies.

COMMERCIAL.

DAILY AVALANCHE OFFICE,
WEDNESDAY, October 1, 1867.

Business in the leading markets ruled quiet and steady, with a fair jobbing trade doing in plantation supplies. Prices for Western products are fair and well maintained.

Our friend Ed. W. Dale, of Commerce, Mississippi, tells us that he brought up to the well known house of O. C. Boone & Co. eight bales of new cotton, of as good quality as ever came out of Mississippi bottom. The purchaser of the cotton admits the fact, but it only brought 19¼ cents per pound. Query: What inducement to planters to raise cotton, at such prices? There will be a broad belt of wheat raised next season, where the fields have been white with cotton bolls in the present and the past, and planters are beginning to look around them for seed. Some prefer the Mediterranean wheat, and a large quantity will be sown this fall. The crop that will be planted next spring will exceed the extent of the present crop. We are very sure there will not be as much regard paid to cotton, as has been the case, the means of subsistence being deemed more certain when supplies are raised at home. We have no idea that the prices will, as a general thing, rule any higher than they stand at present, with a sure downward tendency, and the money market as stringent as ever. Our advice, however to our friends in the country is to dispose of their crops to meet exigencies, and discharge their pressing indebtedness. The fact is our opinion, the price for middling will not go above twenty cents, at which it will stand for some time. The crop was backward, and is late coming in. The want of water in the rivers, the uncertainty of labor, the low prices, and the disappointed expectations of planters who relied at least on 25c, and some on 30c, all have conspired to retard the crop and keep it out of market, beyond the experience of former years. If Memphis shall receive as many bales as during the present season, she will do a great deal, but it will put her population on short commons and economy for another year. In fact, the great desideratum is the establishment of manufactories, without which her growth and wealth must be precarious. Is the Chamber of Commerce doing its duty? Are our merchants waiting to render it an important arm in our trade? Are not merchants from the interior of this and adjoining States availing themselves of facilities in trading which are held out elsewhere? These are questions that address themselves to our merchants with peculiar force, and which they should take into consideration without loss of time.

COTTON.—The market yesterday was dull and heavy, with fair offerings but few enquiries. Holders and buyers were wide apart in their views, and in consequence there was little doing in the market. A few bales changed hands, at irregular prices.

IN reference to our Card as above, we would say that in the future, as in the past, we will give our best attention to the interests of our patrons on all consignments made to us. That while our facilities are at least equal to any, THE USUAL CHARGES WILL BE MADE, and we pledge ourselves that the result to the planter on all business intrusted to us, shall be as favorable as from any other house of equal standing, or from parties who may propose to transact business for less than we feel we can justly and safely afford to do. se6
